

Chapter 6: Zachariah Blackledge and Descendants

Introduction

The compilers are indebted to Linda Grace Talbot [3065] for much of the information in this chapter. Linda, Leona Ginn and Mavis Lewis self-published their earlier finds in *The Family of Jessie Calvin Blackledge*, copy in the Family History Library in Salt Lake City, UT. The documented family line begins with Zachariah BLACKLEDGE who was born 28 July 1767 in SC. He married Mary Gressett in 1787 in SC, and they moved to MS sometime between 1815 and 1822. Many of their descendants lived in Jones Co, MS, which legend says seceded from the Confederacy and the state of Mississippi during the Civil War, and became known as the Free State of Jones.[§]

The first document found to indicate that a Blackledge was in SC is the will dated 21 Sep 1678 of Teige Cantey of Ashley River which mentions cattle bought of Capt. Blackledge (*Wills of South Carolina 1670-1740*, Vol. 1). This was only eight years after the colony of SC was first established.

Next, Henry Sergeant of Charleston, SC sent a bill of exchange dated 15 Aug 1700 to his uncle, Peter Sergeant, in Boston acknowledging 50 pounds value received of Captain Benjamin Blackledge. This is the same Benjamin Blackleach [3:20] found in Chapter 3 *The Blackleach Connection* of this book, and may be the same Capt. Blackledge mentioned in the previous paragraph. This provides proof that a descendant of John Blackleach of Boston was in SC. However, no proof has been found to link him to the Zachariah Blackledge of this chapter, nor has proof been found that Benjamin actually lived in SC since as a ship's captain he may only have transported goods to the area.

The earliest known Blackledge residents of SC go back to Zachariah and Mary Blackledge/Blacklidge and Mary [Blacklidge] Trezvant who witnessed the will dated 13 Aug 1766 of Elizabeth Fopell in Charles Town [now Charleston]. The relationship, if any, of Elizabeth Fopell to the witnesses is not known to the compilers, but she appears on a list of new settlers in Charles Town in 1764 and petitioned for 100 acres bounty land in Belfast Twp.

No documentation of a link to this Zachariah Blackledge and the Benjamin Blackleach previously mentioned has been found. The compilers know only of one child - a female - of Benjamin Blackleach [3:20], a situation which reduces the likelihood of Zachariah being one of Benjamin's descendants. Nor has a documented link of this Zachariah to the Zachariah Blackledge born in 1767 been established.

There are two interesting coincidences that suggest a possible link to the Philip Blacklidge family found in Chapter 4 of this book. First, the earliest Zachariah's surname is found spelled with an "i" rather than "e" in some records. Secondly, the earliest Zachariah Blacklidge wrote his will in 1778. Linda Talbot reasoned that when he wrote his will, Zachariah was probably about 60 years old which would make

him born about 1718. It was only later that Linda learned that Phillip Blacklidge [4:1] from our Chapter 4 *Phillip Blacklidge and Descendants* had a son named Zachariah [4:4] who was born in 1718 and about whom nothing else is known. Could this be the Zachariah who showed up in SC in the mid-1700s? This is an intriguing question, and one which Y-DNA testing may help answer. At the end of this chapter we describe a Blackledge/Blacklidge/Blackleach DNA Project now underway. Preliminary results in 2012 show a strong match between two individuals, one from the Philip Blacklidge line, and one from the Zachariah family. More testing is needed and we present a challenge to obtain additional Y-DNA testing by male descendants from the two lines.

One other Blackledge known to have been in SC during this time is William Blackridge [sic] whose child was buried on 17 Feb 1759 in St. Phillips Parish (St. Phillips Parish records). The father, William, would have been of the right age to be a brother to the first Zachariah, but nothing more is known about him.

Census information from 1790 to 1850 shows three Blackledges living in SC during that time: Zachariah, Thomas and Richard. It is not known how they relate to the family discussed above, nor how they relate to each other, but surely they do. Hopefully, documents will eventually be found to show the links. Since this census information is the primary source of information on these individuals, the compilers felt it is important to provide the following summary of this census information as it was entered, and add the compilers interpretation where helpful:

1790 - Orangeburgh District, SC, North Part - p. 98

Zachariah Blackledge - 1 male 16 and upwards including head of families, 1 male under 16, 2 females including heads of families, 1 slave

This is the Zachariah born in 1767. One wonders if the slave is Jack who was mentioned in the first Zachariah's will. Also, please note that Lyddia Gressett, who may be Zachariah's mother-in-law, is enumerated in the next dwelling from Zachariah. Linda Talbot cautions that she has not proven that Mary is her daughter, nor has she seen any document which actually states this.

1800 - Orange Co, SC, Enumerated between Edisto River, Beaver Creek, and Four Holes - p. 285

August 20, 1841: "The Southern Christian Advocate: The death of Thomas Blackledge of South Carolina died 10th of May last of dropsy, in his 67th year of Orangeburg Dist, South Carolina. Left an aged widow and a few relations."

Please note that the birth date of Thomas was calculated from the above record to be about 1774.

1850 Census - Orangeburgh District, SC - Enumerated 18 Dec 1850, p. 277, Dwelling # 60 - This is between the River Road from Orangeburgh CH to Branchville, and Four Hole Swamp

Richard Blackledge, Age 80, Male, Planter, Value of Real Estate \$200, Born SC

Please note that the birth date of Richard was calculated from the above record to be about 1770.

These census records thus suggest that Zachariah was the only one of these three Blackledge men who had children, and it is with this Zachariah Blackledge who married Mary Gressett that we will begin the documented family line for this chapter. The Reader is cautioned that there are many creative spellings of names and many, many crossing of family lines in this chapter. Please understand that the compilers realize that we may well have inadvertently included many mistakes in this confusing family! Linda Talbot tended to be conservative in what she included, but the compilers added information from other sources and are not sure that we can be as confident in the accuracy of their work. Also, there is considerable information out there on some of the potential descendants of Zachariah which we have chosen not to include since Linda more than once cautioned about the confusions. When data conflicted with Linda's data, we either indicated that or chose not to include it.

From other known documents, we can begin to construct a family which lived in SC in the 1700s. The Reader will note two generations preceding the progenitor of this chapter, [7] Zachariah b. 1767. The compilers caution readers to understand that the only documented children of this earliest [First Generation] Zachariah are sons Zachariah and Thomas (see Zachariah's will below). The other children listed here are included because they were found in the same area in the same time frame.

First Generation

1. **Zachariah BLACKLEDGE**¹ was Master of a 20-ton schooner, built on the Ashley River in 1744 and registered on 24 Apr 1748.² Owners of this merchant ship named *Swallow* were Andrew Dereaux and Andrew Dereaux, Jr., both planters in SC. On the original document, a snippet of which is shown on the next page, note that Zachariah's surname is spelled Blacklidge. He and Mary Blacklidge [sic] witnessed

the will of Elizabeth Fopell of Charles Town, SC on 13 Aug 1766.³ On 27 Apr 1768, a Mary Blacklidge [sic] was included on a SC Treasurer's Office listing of persons who were granted certificates for business licenses; Mary's name was followed by the notation 'Union Street' leaving one to speculate whether this was the location of her home or her intended business. On 28 Sep 1768, Zachariah Blacklidge [sic] witnessed the deed of land in Craven Co of James McWhoor, tailor, to Andrew Simpson, cooper, both of Charleston. He bought a Negro boy slave named Jack (listed in Zachariah's 1778 will as about sixteen years of age) on 30 Jun 1774.³ He acquired a

250 acre plantation known as Camp Branch in Craven Co, SC in Mar 1775.³ Craven Co no longer exists, but at that time comprised almost all of the northern one-half of SC. Camp Branch was located on the north branch of Black River. The survey of the land was certified on 15 May 1775. He is probably the Zachariah Blackledge who appears on a Petit Jury List from 1778 to 1779 in the Parish of St. George, Dorchester, SC.⁴ Mary Bondurant Warren in her *Heritage Papers* noted that South Carolina jurors were named in the parish of their residence; men paying at least five pounds tax the previous year were named Grand Jurors as well as Petit Jurors while men who paid less tax were named only as Petit Jurors and many land owners are missing from jury lists since Colonial tax acted placed a low tax rate on land and high tax rates on personal property, slaves, business merchandise and equipment. Thomas Waring and Stephen Cater were also on the jury list.

He signed a will on 24 Jul 1778 in Dorchester in the Parish of St. Georges in Berkeley Co, SC.⁵ The following is a copy of the transcript of Zachariah Blackledge's will as provided by Linda Grace Talbot. Care was taken to make an accurate copy of the transcript, including errors of spelling; however, duplicate words were deleted, the "long s" was changed to "s", and the word "Christian" was used which being "Chrisitan" in the transcript was deemed to be a typographical error of the transcript itself.

RECORDED IN ORIGINAL WILL BOOK 1780-1783, PAGE 94

Note: Joseph Waring and Stephen Cater also were on the Petit Jury list with Zachariah Blackledge.

He died before 26 Jan 1781. Zachariah would have had to be dead by this date on which his will was recorded and proved. He was born possibly about 1718. Linda Grace Talbot calculated this birthdate based on Zachariah likely being about 60 years of age when he wrote his will in 1778. She believes there had to be a generation between the Zachariah who wrote the will in 1778 and her direct ancestor, Zachariah Blackledge b. 1767. Readers are cautioned to understand that there is evidence for this Zachariah and his children as presented here, but it is not known for sure how they are related to each other nor how they are related to the Zachariah b. in 1768. Some researchers believe his father is Capt. Benjamin Blackledge. No document to support this has been found; however, there are records of a Capt. Benjamin Blackledge being in SC in 1678 and 1700 (Records of the Secretary of the Province of South Carolina 1692-1721 by Caroline T. Moore).

Zachariah BLACKLEDGE and Mary married about 1738.⁵⁻⁷ This possible marriage date was calculated by Linda Talbot, based on Zachariah's possible birthdate. **Mary** was born about 1720.⁶ Zachariah BLACKLEDGE and Mary had the following children:

- 2 i. **Thomas BLACKLEDGE** was born about 1739 in possibly SC.⁶
- +3 ii. **Zachariah BLACKLEDGE**, born about 1740, possibly SC³.
- +4 iii. **Mary BLACKLEDGE**, born about 1745⁶; married Daniel TREZEVANT, on 29 Jun 1765, Saint Philip, Charleston, Charleston Co, SC⁸⁻¹⁰.

Blackledges in America - Second Edition

- 5 iv. **Ann BLACKLEDGE** was buried on 15 May 1747 in St. Phillips Parish, SC.⁷ She was born probably in the 1740s.⁷ This Ann was listed as a child in the burial records; however, it is only assumed that she was the daughter of Zachariah and Mary Blackledge based on the time and location.
- 6 v. **Benjamin BLACKLEDGE** was born about 1759.⁶ His birthdate was calculated and based on his being about age 20 when he was in the military. He died on 14 Sep 1779.⁶ He may be the Benjamin Blackledge who served in the Revolutionary War in SC.^{9,11} If so, he served on the First Council of Safety of the Revolutionary Party in SC from June to November 1775. Also, on 9 October 1775, he was in Capt. Andrew Cumming's Company of Volunteer Militia: SC Salt Catchers and Edisto District, Colleton Co, Regt of Foot.

However, he may also be the Benjamin Blackledge who on 2 Aug 1779 enlisted in Captain Robert Pearis' Company of SC Royalists, Savannah, GA. It is that Benjamin who died 14 Sep 1779. It is not clear if the same Benjamin first fought for the American Revolutionaries and later for the Royalists, or if these events were by two different Benjamins.

Second Generation

3. **Zachariah BLACKLEDGE** was born about 1740 in possibly SC.³ Linda Grace Talbot believes that for this Zachariah, Jr. to have been of age to inherit his father's plantation when his father wrote his will in 1778, he was probably about 35 years old; that led Linda to calculate that Zachariah Jr. was probably born abt 1740. Since the Zachariah born in 1767 would have been only 11 years old at the time the first Zachariah wrote his will in 1778, and there was no mention in the will of his being a minor, it seems likely that there was a Zachariah who was in the generation between the first Zachariah and the one born in 1767.

Zachariah BLACKLEDGE had the following children:

- +7 i. **Zachariah BLACKLEDGE**, born on 28 Jul 1767, SC^{7,12,13}; married Mary GRESSETT, on 7 Feb 1787, SC^{12,13}; died before 1840¹².
- +8 ii. **Richard BLACKLEDGE**, born on 27 May 1770, SC^{1,6,14}; married Catherine¹⁴; died on 27 Sep 1852, Orangeburg District, Orange Co, SC¹⁴.
- +9 iii. **Thomas BLACKLEDGE**, born in 1774, SC^{14,15}; married Mary¹⁴; died on 10 May 1841, St. Matthews Parish, Orangeburg Co, SC^{6,14,15}.

4. **Mary BLACKLEDGE** was born about 1745.⁶ This is based on the fact that she was of marriageable age by 1765. She is listed as a spinster on 25 Jun 1765.¹⁶

Mary BLACKLEDGE and Daniel TREZEVANT married on 29 Jun 1765 in Saint Philip, Charleston, Charleston Co, SC.⁸⁻¹⁰ The register of St. Phillip's Parish in Charleston, Charleston Co, SC has record of a Mary Blackledge who married Daniel Trezant on 29 Jun 1765. It is only suspected that this Mary Blackledge married Daniel Trezvant. **Daniel TREZEVANT** first married Elizabeth Miller in Charles Town, SC on 5 Apr 1753.¹⁷ Daniel and Elizabeth had two daughters, Susannah born 6 Aug 1755 and Martha born 13 Apr 1757. After Elizabeth died, Daniel married Mary Blackledge. He was buried on 28 Dec 1768.^{3,17} He was a silversmith in Charlestown, SC.⁹

Third Generation

7. **Zachariah BLACKLEDGE** was born on 28 Jul 1767 in SC.^{7,12,13} This Zachariah's father is not known. It could be Zachariah, Richard or Thomas Blackledge who were found in SC during this time period.

He lived in the north part of Orangeburg district, SC in 1790.¹² Zachariah Blackledge was found there in the census in a household with 1 free white male under 16, 2 free white females and 1 slave. He appeared in the census in 1800 in Orangeburg District, Orange Co, SC.¹² Zachariah Blakedge [sic] was found with 1 male under 10 years old, 1 male 10-16 years old, 1 male, 1 male 26-45 years old, 4 females under 10, 1 female 26-45. He appeared in the census in 1810 in Orangeburg Co, SC. Zachariah Blacklidge [sic] was found with 1 male under 10, 1 male 10-16, 1 male 16-26, 1 male 26-45, 2 females under 10, 2 females 10-16, 2 females 16-26, and 1 female 26-45.

He moved to Jones Co, MS between 1815 and 1822.¹² Zachariah appeared on an 1822 Petition which appealed for the creation of Jones Co from part of Covington Co. In April 1826, the MS Legislature formed Jones Co by splitting off parts of Covington and Wayne Cos. He has not been found in the census in 1820. He appeared in the census in 1830. This is the only census in MS in which Zachariah appears. In the household of Zach Blackledge we find 1 male 15-20 (this would be his son William), 1 male 40-50 (son Thomas), 1 male 60-70 (Zachariah himself), 1 female 20-30 (daughter Rachel), 1 female 50-60 [his wife Mary). He died before 1840.¹² He was buried in Jones Co, MS.¹⁸ He served in the War of 1812 from SC.^{12,19} Zachariah and his son, Thomas, were listed in the Orangeburg District Petitions. Zachariah served as a private in Co.B, Juhan's Battalion, SC Militia from 28 Sep 1814 to 1 Dec 1814 (for 2 months and 2 days).

Zachariah BLACKLEDGE and Mary GRESSETT married on 7 Feb 1787 in SC.^{12,13} **Mary GRESSETT** (daughter of Lydia) was born on 18 Jan 1770 in SC.^{13,18} She died at the age of 79 years from dropsy in Jul 1849 in Jones Co, MS.^{12,20} She was buried in Jones Co, MS.¹⁸ Zachariah BLACKLEDGE and Mary GRESSETT had the following children:

- 10 i. **Thomas BLACKLEDGE** was born on 23 Jan 1788 in Orangeburgh, SC area.^{13,18,21,22} He appeared in the census in 1850 in Jones Co, MS. The census record shows Thomas, 62 years old, no occupation, was living with his sister, Rachael [sic]. He appeared in the census in 1853 in Jones Co, MS.²³ On this state census, Thomas Blackledge has 1 male and 1 female in his household. These would be Thomas and his sister Rachel. Thomas is not found on any later census records and his sister Rachel is shown on the 1860 Census with the James Edward Walters family. He died between 1856 and 1860.^{23,24} On 12 Feb 1856, Thomas appeared in court in Jasper Co, MS, in his quest to obtain bounty land. He served in the War of 1812 from SC.¹² Thomas and his father, Zachariah, were listed in the Orangeburg District Petitions. Thomas served as a private in Co.B, Juhan's Battalion, SC Militia from 28 Sep 1814 to 1 Dec 1814 (for 2 months and 2 days). Thomas was listed as disabled in the 1850 census and applied for "bounty land" for his War of 1812 service on 9 Jan 1852 at Paulding, Jasper Co, MS. He received 120 acres. He did not marry.
- +11 ii. **Ann BLACKLEDGE**, born on 29 Nov 1789, Orangeburgh, SC area^{13,18,21,22,25}; married Herrin WALTERS, in 1809, Colleton Co, SC²⁵⁻²⁸; died between 3 Mar 1856 and 1860^{14,26}.
- 12 iii. **Mary BLACKLEDGE** was born on 23 Dec 1791 in Orangeburgh, SC area.^{13,18,21,22}

Blackledges in America - Second Edition

- +13 iv. **John BLACKLEDGE**, born on 9 May 1793, Orangeburgh, SC area^{13,18,21,22,29}; married Elmira Elvira OVERSTREET, about 1827, MS³⁰; died on 11 Sep 1871, Jones Co, MS^{18,31,32}.
- 14 v. **Lydia BLACKLEDGE** was born on 2 Apr 1795 in Orangeburgh, SC area.^{13,21,22,33}
- +15 vi. **Elizabeth BLACKLEDGE**, born on 14 Apr 1797, Orangeburgh, SC area^{13,21,22,33}; married Daniel WALTERS³⁴.
- +16 vii. **Winaford BLACKLEDGE**, born on 6 Sep 1799, Orangeburg Co, SC^{3,21,35}; died before 1870³⁵.
- 17 viii. **Sarah BLACKLEDGE** was born on 7 Oct 1803 in Orangeburgh, SC area.^{13,21,22,36}
- +18 ix. **Zachariah BLACKLEDGE**, born on 27 Aug 1806, Orangeburg, SC^{3,13,29,36,37}; married Martha Ann BRELAND, about 1830, SC^{3,6}; died between 1870 and 1880³⁷.
- 19 x. **Rachel BLACKLEDGE** was born on 9 Aug 1809 in Orangeburgh, SC area.^{13,21,22,29,38} She appeared in the census in 1850 in Jones Co, MS.²³ Rachel was listed with her brother Thomas on that census as well as on the 1853 Mississippi State Census. She is with her sister Dicy C. Walters and her husband in Ellisville, Jones Co, MS for the 1870 Census. Then, Rachel is listed as R. Blacklege [sic] (71, born in SC) with her niece Cynthia and her husband J. L. Walters in Erata, Jones Co, MS for the 1880 Census.
- +20 xi. **William BLACKLEDGE**, born on 13 May 1814, Orangeburg, SC^{3,13,21,29,38}; married Mary SMITH, on 15 Mar 1835^{13,21,38}; married Francis Catherine NAPIER, about 1863^{38,39}; died between 1870 and 1880³⁹.

8. **Richard BLACKLEDGE** was born on 27 May 1770 in SC.^{1,6,14} He died on 27 Sep 1852 in Orangeburg District, Orange Co, SC.¹⁴ He was buried in Trinity Lutheran Church Cemetery, near Ellore, Orangeburg Co, SC.^{14,40} There are two conflicting records of Richard's tombstone inscription. The Orangeburg Cemetery book says his tombstone reads: *Richard Blackledge May 27, 1770 - September 27, 1831*. However, since Richard was listed in the 1850 Census, the compilers believe the inscription from *Sacred Dwellings*, a book by Peggy Miller, is the correct reading: *Richard Blackledge May 27, 1770 - Sep 27, 1852*. Richard Blackledge is found on census records in the Orangeburg District, SC from 1810-1850: 1810 - 1 male 16-26 and 1 female 45 and up; 1820 - 1 male 45 and up and 1 female 45 and up, includes 1 person engaged in agriculture; 1830 - 1 male 50-60 and 1 female 40-50; 1840 - 1 male 70-80, 1 female 50-60, 5 slaves, includes 2 individuals engaged in agriculture [Since Richard's wife Catherine died in 1819, it is not clear who the female in the 1830 and 1840 census records is.]; 1850 - Richard Blackledge, 80, planter with \$200 value of real estate, born in SC. The 1850 Slave Schedule shows that Richard has 8 black slaves: 2 females (ages 50 and 28) and 6 males (ages 19, 13, 10, 6, 4, and 8/12).

From *Orangeburg District, 1768-1868: History and Records*, by Daniel Marchant Culler, regarding the White Meeting House: "*The original church building, known as White Meeting House, was a small one-room building situated on four acres of land on a branch of Middle Penn waters of Four Holes. The church plus the land was deeded to the Methodist Church on October 1, 1790, by Daniel Syfrit. Some of the early trustees before 1821 were James Patterson, Sr., John Moor, William Murphy, James Patterson, Henry Hutto, John Cagle, and Abraham Rush. In 1821 all of these trustees (except Rush) were succeeded by Marlin Gramling, Christian Gramling, John Patterson, George Bowman, Richard Blackledge [sic], and Philip Aaron.*"

Richard BLACKLEDGE and Catherine married.¹⁴ **Catherine** was born about 1772.¹⁴ She died on 12 Sep 1819.^{14,41} Linda Grace Talbot believes that is the correct date, however, the Orangeburg cemetery book shows her as died 12 Sep 1837 at age 77 years. She was buried in Trinity Lutheran Church Cemetery, near Ellore, Orangeburg Co, SC.¹⁴ Catherine is buried next to her husband. Tombstone reads: *Catherine Blackledge died Sep 12, 1819.*

9. **Thomas BLACKLEDGE** was born in 1774 in SC.^{14,15} He died on 10 May 1841 in St. Matthews Parish, Orangeburg Co, SC.^{6,14,15} He was buried in Trinity Lutheran Church Cemetery, near Elloree, Orangeburg Co, SC.^{14,15,41} Thomas is buried in the same plot and next to Mary Blackledge. His tombstone is in poor condition and has been recorded as reading: *Thomas Blackledge died May 19, 1847 in the 67th year.* That would make him born about 1780 rather than 1774, but the "*The Southern Christian Advocate*," had an entry in 1841 that stated "*Death of Thomas Blackledge of South Carolina - died 10th of May last of dropsy in his 67th year of Orangeburg Dist., SC, left an aged widow and few relations.*" That would make Thomas born about 1774. Therefore, the compilers have chosen to record that Thomas was born in 1774 and died in 1841.

Thomas Blackledge (sometimes as Blacklidge) is found in census records in Orangeburg, SC 1810-1840: 1810 - 1 male 26-45, 1 female 26-45, 5 slaves; 1820 - 1 male 26-45, 1 female 26-45, 2 free colored males 14-26, 3 free colored females under 14, includes 5 persons engaged in agriculture; 1830 - 1 male 20-30, 1 male 50-60, 1 female 50-60; 1840 - 1 male 40-50, 1 male 60-70, 1 female 40-50, 1 female 60-70, 19 slaves, includes 10 individuals engaged in agriculture.

Note: Marriage and Death Notices from "*the Southern Christian Advocate*," V. 1: 1837-1860 by Brent H. Holcomb, C.A.L.S. - "*Departed this life, on the 21st of March, 1844, in the 40th year of her age, sister Sarah Strock, consort of David Strock...daughter of Frederick and Elizabeth Miller of Charleston. On the death of her parents, she resided with a relative, Thomas Blackledge, in Cypress circuit, S.C. Conference...left a husband and five children - J. D. W. Crooks Mar 25, 1844.*" The compilers do not yet know if Sarah and her parents are relatives of Thomas' father or mother.

Thomas BLACKLEDGE and Mary married.¹⁴ **Mary** was born about 1775.¹⁴ She died on 21 Aug 1847 in St. Matthews Parish, Orangeburg Co, SC.^{14,41} She was buried in Trinity Lutheran Church Cemetery, near Elloree, Orangeburg Co, SC.^{14,41} Mary is buried in the same plot and next to her husband. Tombstone reads: *Mary Blackledge Died August 21, 1847 Aged 79 years.* Her tombstone is in poor condition and has been mistakenly recorded as Tyry in cemetery books. Also, if she was 79 when she died in 1847, she would have been born abt 1768, but the poor condition of her tombstone may mean the age inscribed was no longer clear.

Neta Savannah Blackledge Broadhead recalled that he died and was buried in George Co sometime between 1876 and 1878, however, it has been recorded that George Co was not established until 1910 which is about 32 years after Jessie died. Linda's research henceforth has indicated that George Co was formed from both Greene and Jackson Cos and it is therefore correct to say Jessie died in Greene Co, MS. He was a wheelwright.⁶ He was buried in Greene Co, MS.⁷¹ Jessie is buried in an unmarked grave near his home. Rachell Ann WALTERS and Jessie Calvin BLACKLEDGE had the following children:

Co, MS.⁷¹ Jessie is buried in an unmarked grave near his home.

Smith (27) with her mother on the 1870 Census. **Jessie SMITH** died by hanging during the Civil War about 1863 in the Reedy Creek

Swamp, not far from Sandersville, Jones Co, MS.^{80,214}

The following account of his death is taken from "Ella Kate's DNA," an Ancestry.com family tree by Michael Logue:

Two Son-In-Laws Hung for Desertion

According to John I. Blackledge, two of his great uncles were hung by vigilantes for desertion during the Civil War (a Smith who married Dicey Ann, and a Gaskin who married Elizabeth "Bett")

Walter Allen Blackledge gave a slightly different account of Jessie Smith's death:

When my grandmother's husband was a fourteen year old boy, he was with his older brother, James and his brother-in-law Andrew Smith, husband of Dicey. The brother and brother-in-law had returned home for a visit from their Confederate army units. They were in Reedy Creek Swamp, not far from Sandersville, when they came upon an army unit looking for deserters. It has been said the two men had in their pockets, signed papers from their commanding officer, but the man in charge said, 'Hang them,' and they did. My grandmother told me that she and another teenager drove a team over there a day or two later and she cut the ropes that they were hung with and the bodies fell into the wagon. The bodies were taken to a cemetery on the road from Sandersville to Pleasant Grove and buried. No grave markers were ever put on the graves.

And, Walter Allen Blackledge gave yet another version of this event:

James Blackledge born 11 Feb 1838 was hung for desertion from the confederate forces in the late fall of 1863 in reedy creek swamp of Jones County, MS near Sandersville. His brother-in-law Jesse Smith, husband of Dicey Blackledge was hung along side him for the same reason. James younger brother, Allen Castlet witnessed the hanging and reported back to the family. Had it not been for the intervention of the man in charge of the detail of soldiers Allen would have been hung also.

Finally, another version of the hanging was found in *Confederate Records of Covington, Wayne and Jones County [MS]* compiled by Jean Strickland and Patricia N. Edwards and was given by Mr. J. C. Andrews who was 90 years old in June of 1936 and had been owner and operator of a grist mill and cotton gin. Mr. Andrews was conscripted into the Confederate army and detailed to furnish certain supplies to Confederate soldiers and their families. His account of the Newt Knight gang of deserters who operated in Jasper and Jones counties told of how the gang robbed a Confederate commissary and on numerous occasions robbed and killed or forced citizens to leave the county. These actions outraged the Confederate forces who led a determined effort to drive them from the county or capture and punish them. An expedition eventually was ordered to capture and hang the gang members as deserters. And, "...on a Saturday morning about nine o'clock, three of them were hanged as deserters. Mitchell, Blackledge, and Smith were all loaded on a wagon and driven to a large oak tree near Erratta [sic] on the old St. Stevens Trade Road and there they were all tied to a limb over the road and at a prearranged signal, when a blast from a trumpet sounded, the driver started his wagon and drove it from under them where they had been standing and left them suspended in the air. They remained suspended in this position till Monday when their wives came and cut them down and gave them burial in their own way. An old negro from the Ferguson place came along the road on Sunday and saw this gruesome sight and ran to me [Mr. J. C. Andrews] almost scared to death."

Note: The James Blackledge who was hung in these accounts could not have been Jessie Smith's brother-in-law James G. Blackledge since he was found in later census records and signed a will in 1899.

Walter Edward Blackledge said: "*...They homesteaded a place about a mile down the creek [Thompson Creek]. They were industrious: they cleared land, build [sic] a house, dug a well, build [sic] barns and, not to leave it out, started a family the next year [after marrying]. Emilet cooked on a fireplace, made clothes by candlelight, watered deer from the well in dry summers, and drove oxen in her spare time. Allen cut timber, farmed, tended cattle and sheep and loaned money from a trunk in his house. He had acquired some 1500 acres of land by 1900. For some of that land, he paid only ten cents an acre. A few parcels of that land has sold for \$1600 or more dollars per acre or 16,000 per cent increase in 100 years...[Allen] built them a lumber house in 1912-1913. He bought a large, six-eye, cook stove with a water reservoir. Cooking had been done on a large fireplace in the old log house until that time.*"

Biography/History:

William E. Blackledge (b. ca. 1851) married Eliza E. Hodges (b. 1869) in Wayne County, Mississippi, on January 19, 1888. They had a number of children, including Drusilla, Fannie N., Hop, John I., Kate, Leona, Madison, Maude, Nelson, and Pauline. William E. Blackledge was a Wayne County farmer who had died by 1910, but Eliza Hodges Blackledge continued to operate the farm. She was living in nearby Laurel, Jones County, Mississippi, by 1930.

John I. Blackledge was born in Wayne County on May 10, 1894. He was a farm laborer in 1910, and he worked at a logging camp in 1920. Blackledge was later a plantation manager in the Arkansas and Mississippi delta region. He married Myrande D. Loper in Jones County on January 22, 1921. She had been born in Mississippi on March 23, 1901.

The Blackledges lived in Laurel, and they had at least two children: Rodrick L. Blackledge and Johnette Blackledge Hamilton. John I. Blackledge was a land supervisor for a number of years, and from 1948 to 1957, he was an administrator at Ellisville State School in Ellisville, Jones County, Mississippi. He was a member of the Masonic Order and a Shriner. John I. Blackledge died on February 29, 1980, and he was buried in Jones County. Myrande Loper Blackledge died on January 24, 1990.

Blackledges in America - Second Edition

A 1948 certificate indicates that John Blackledge was a colonel and aide-de-camp on the staff of Mississippi governor Fielding L. Wright, and two other certificates document the appointment of Blackledge to the advisory committee of the agricultural and industrial board of Jones County. One 1940 certificate documents the appointment of John W. Blackledge as a member of the draft board of DeSoto County, and President Jimmy Carter awarded John I. Blackledge an undated certificate in recognition of his service in the United States armed forces. Other certificates and awards were presented to John Blackledge from the National States' Rights Committee and the Masonic Lodge of Mississippi. There is a 1982 membership certificate of Randy Blackledge in the Society of the Centennial Belles of Laurel, Mississippi.

The correspondence consists of a 1980 letter from G. E. Rothrock, a Scottish Rite mason of Memphis, Tennessee, who wrote the family of John I. Blackledge in Laurel expressing condolences upon his death.

All of the photographs are black-and-white in format except for a 1986 color photograph of an unidentified woman. There is a photograph of Governor Paul B. Johnson, Jr., standing beside a portrait of his father, Governor Paul B. Johnson, Sr. There is an undated, annotated photograph of Governor Fielding L. Wright with several hundred of his colonels and members of his family on the steps of the Mississippi Capitol. An undated photograph depicts Governor Ross Barnett with several hundred of his colonels on the steps of the Mississippi Capitol.

The miscellaneous papers include a 1941 document signed by Mississippi governor Paul B. Johnson, Sr., ordering the state of Illinois to apprehend and deliver two fugitives to John W. Blackledge. There are two 1942 war-ration books for

John W. Blackledge and Myrande L. Blackledge. One small, undated notebook is partially filled with notes on crops and building supplies, and another undated notebook records problems with unspecified buildings.

"I remember my grandmother, Lizzie, telling me that she had 5 boys and 5 girls. Four girls and one boy died in infancy. The names, birth dates, and death dates were lost when her Bible disappeared sometime between her death in 1950 and the death of her only surviving daughter, Ida, in 1979. Evidently, these 5 infants died between the 1900 census and the 1910 census." (Source - Louise Fisher Goff 1 May 2001)

The 1910 census states that by that time she had given birth to nine children and four of them were still living, and five had died. Since the compilers know of six children who lived to adulthood, Lizzie must have given birth to a total of eleven children, rather than just ten.

"In the family, she was known as "Mama" instead of Grandma or Grandmother. She lived the last

years of her life with Sandy and Bonnie Fisher and their two girls, Helen and Louise." (source - A. Kenneth Creel).

472. **Andrew Herman "Andy" WALTERS** was born on 7 Aug 1878 in Ellisville, Jones Co, MS.^{57,86,98,136,139} He died on 1 Sep 1956 in Charity Hospital, New Orleans, LA.^{34,44,293,294} Andrew died of injuries sustained in an automobile accident several days before. His fourth wife, Eliza, was in the car with him and was severely injured, but she recovered and lived several years longer. Andrew's obituary said he married Elijah [sic] Jane Burch. He was buried in Fisher Methodist Church Cemetery, Franklinton, Washington Parish, LA.²⁹³ He was a Baptist.¹⁴¹ He was a farmer.³⁴

"Grandpa Walters was a farmer, strong minded, worked hard and had little use for people that he perceived as being lazy. He was very short of patiences and I can't remember seeing him laugh or smile. He wore glasses and his clothes were usually overalls. He had a blacksmith shop, goats, cows, horses and pigs. He also had a syrup mill and made cane syrup molasses, the kind you can't buy any longer. He apparently learned the blacksmith trade from his Grandfather, Elijah Shoemake. He also had a garage that he put his truck in and this was the very first automobile garage that I can remember. He lived in a very old house built two or three feet off the ground. It had a hall that ran down the middle of the house from the front porch to the rear porch. There was also a dairy barn and several utility barns. Early on I remember him owning a Model T or something very similar to that. On the back porch he ran a water line up in the rafters that permitted water to run into a syrup bucket that had holes punched in the bottom that made a very delightful shower. First I ever saw." "My Mother was a very young girl when Luda Fisher passed away. She has no idea as to the cause of her death except she had severe headaches. Mom said that Grandmother Luda and Grandpaw Andrew worked very hard in the fields and running the farm and never had time to spend with the kids. Mom said that her parents never shared information with them about things going on arownd [sic] them. Grandpaw bought the old place without the kid knowing anything about it. One day when Mom was leaving for school, Grandpaw told her to walk from school up to their new home. She said they didn't even know how to find the place as they had never seen it.

"Mom said that Grandpaw's brothers would get sick and would come to his home and they would take care of them. Both Alvin and Sandy were brought to his home for burial. Sandy died in Arizona and was returned to Franklinton for burial in the Varnado Cemetery next to his Dad. Alvin apparently had a mental [problem]."

Poems by Lovie Leona Blackledge Cook:

ODE TO MY DAUGHTERS

*You did not choose me for your Mother
How glad I am!
You might have chosen some other,
What a loss that would have been for me.
You have been my life and my light*

Blackledges in America - Second Edition

*Without you what would I have been?
 An empty vessel
 You have been my anchor, my steering and propeller,
 Through you I have lived my life,
 In its fullest measure.
 More than I deserve - - Thank God for such a treasure.*

Your loving Mother - Leona

ODE TO GRANDCHILDREN

*Tender young sprouts
 From the family tree,
 Growing strong in the warmth
 of their parental ancestry.*

*Young minds ready
 For scientific and creative development,
 Guided by faith and confidence
 of their family influence.*

*Another generation!
 Intelligent, capable, responsible,
 and dependable.*

*Thank God and parents
 For Grandchildren
 All Grandchildren,
 Especially mine.*

Jethro [1423]
c. 1926.

Story of his death as told to Donna Walker by Aunt Vera [1426], Jethro's sister: Jethro was in town (Louise, MS) on Dec 14, 1935. He was to be married on Christmas day. He got drunk, or had one too many drinks and the Constable said he was disturbing the peace. He was going to lock him up overnight. No one could be found that he was supposed to have been disturbing. As he walked toward the jail, he stumbled across the ditch. The Constable thought he took a "swing at him" so he shot Jethro. It was later determined that Jethro was shot in the back... the constable wanted to make a name for himself.

Jethro had gotten a girl whose surname was KING, pregnant and was going to get married to her, but was

The following two paragraphs were part of the Eulogy for Ruby given by Linda Grace Talbot at Ruby's funeral service on 21 January 2003 in the Mausoleum Chapel of Evergreen Memorial Park, Wenatchee, WA. The first paragraph is in Ruby's own words that she wrote for the Zachariah Blackledge family book co-authored by Linda in 1982.

"On November 29, 1911 a second child was born to Joseph Pink and Neta Savannah Blackledge Broadhead. They named her Ruby Detress Broadhead. I know all this because Mom and Dad said so. You see I'm that kid, however I never liked the name Detress, so in my high school days, I up and changed it to Dee. We always lived in the country, and life was not easy. Mom saw to it that we got as much schooling as she could give us. Being eight of us that was no easy task. When I finished high school, it

was my good fortune to find a job in Hattiesburg, Mississippi at a garment factory. In 1947 I left Mississippi and went to Long Beach, California to see my kid sister, Ernestine Miner. It was there that I later met John McPheeters. We were married April 7, 1950. After leaving Long Beach we settled in Redding, California. It was mostly hard work for us. Wages were low, and in trying to buy a twenty acre place, we had no money for even one luxury. There were many pleasant things though that came into our lives. Ike and Ernie would come up most every summer for a vacation. The summer of 1954 Mother came out to see us from Mississippi. My neices Linda and Judy Miner came up for the summer also. That was one of the brightest times of our lives. John's daughter, Joyce Colleen came to live with us. This was also in 1954. She was a junior in high school then. She married two years later and had four children. Now she is a grandmother we have become great grandparents. In 1958 we sold our little ranch and went on a five year road construction work that took us to several places from southern California to Arizona. After that we went back to northern California, first to Anderson and later to Redding. In 1977 John retired and we moved to Gold Bar, Washington. We were there until 1981. We decided a warmer climate would be better for John, as he is suffering from a bronchitis condition. We are satisfied with our present home in Wenatchee."

Linda remembers her Aunt Ruby and Uncle John's twenty acre farm as a pretty and pleasant place where deer grazed at the foot of the mountains and pheasants frequented. Ruby was a gifted seamstress and cook and made beautiful quilts and meals for family and friends who were always welcomed in her home. She served her family, church, and friends with a tender and loving heart.

Closing: Genetic Genealogy

Descendants of Zachariah Blackledge continue to look for documents to link him to one of the other Blackledge families. Will it be found that he is descended from the John Blackleach family or the Philip Blackledge family or even another yet unknown family? One intriguing approach to answering this question is through genetic genealogy.

Genetic genealogy can produce dramatic results. One example: in Feb 2013, experts reported that DNA analysis supports their claim that the bones dug up in 2012 under a parking lot in the English city of Leicester are the last mortal remains of England's King Richard III (b. 1452 – d. 1485).

A genealogical DNA test looks at a person's genetic code at specific locations in the DNA string. Results give information about genealogy or personal ancestry. Generally, these tests compare the results of an individual to others from the same lineage or to current and historic ethnic groups.

A man's patrilineal ancestry, or male-line ancestry, can be traced using the DNA on his Y chromosome (Y-DNA) through Y-STR testing. (STR: Short Tandem Repeat). The technique looks for mutations or changes in the DNA from generation to generation. This is useful because the Y chromosome passes down almost unchanged from father to son, i.e., the non-recombining and sex-determining regions of the Y chromosome do not change. A man's test results are compared to another man's results to determine the time frame in which the two individuals shared a most recent common ancestor, or MRCA, in their direct patrilineal lines. If their test results are a perfect or nearly perfect match, they are related within genealogy's time frame, which is generally considered to be since surnames were adopted in Western Europe, or roughly since about 1500 A.D. Each person can then look at the other's father-line information, and hopefully find a common ancestor. Each may choose to have their test results included in their surname's "Surname DNA project." Of course, the DNA testing cannot identify that common ancestor – that is the challenge of the genealogist.

However, others would say that this would place too much faith in the prediction of the generations to a MRCA. For instance, genealogy colleague John Farris notes that when testing for 43 markers, his older

brother and he show separation by one mutation. John notes, *"My father was nearly forty when I was conceived and I think his sperm were getting tired. I understand that this type of mutation is more common as the parents get older. On the other hand, I have a 67/67 match with another FARRIS and we can't find a MRCA within six generations. Running my FARRIS surname site, I generally found that if you matched exactly or within two mutations, then the MRCA was usually within 4 or 5 generations."*

One of the compilers, Michael A. Blackledge, serves as Project Administrator for the FamilyTreeDNA project for the Blackledge/Blacklidge surname. This world-wide group established under FamilyTreeDNA.com is for those desiring to supplement their genealogy research with a simple Y-DNA test for the surname Blackledge or Blacklidge, in order to overcome seemingly insurmountable brick

walls. For our Y-DNA tests, only males can be tested because females have no Y-DNA. However anyone can become a member of the project. The goal is to link some English Blackledge families with Blackledges in America. DNA testing is easy: a simple swab on the inside of the cheek and mail it in for your results. The current cost associated with the tests is provided on the FamilyTreeDNA.- com web site. This surname project was launched on 25 Oct 2010, however by Feb 2013, only seven descendants had chosen to participate.

A few of the descendants who have joined our Blackledge surname project are Andrew Craig Blackledge (Kit #207185), Michael A. Blackledge (Kit #216900, and also a compiler and the Project Administrator), and Harold R. Blackledge (Kit #90001). Harold and Michael are in the same haplogroup (more on this later) and match exactly for 12 markers, but this means almost nothing as far as genealogy goes: matching at 12 markers proves only that these two were related a few thousand years ago. We need 37 marker or 67 marker tests (and matches) to be meaningful for genealogy. (In February 2013, Harold upgraded his testing to 37 marker, and we will examine those results).

Andrew Craig doesn't match either Harold or Michael. They are in the William line (Chap 5) and Andrew is in the Phillip line (Chap 4), thus not only are Andrew Craig and Michael not related (by DNA), but also the William line and the Phillip line are shown not to be related (by DNA).

Janet S. Williamsen (Kit # 90000) and Audry Regnal Blackledge (Kit # 213647) are under the Surname project but signed up for the mt DNA testing. Genetic matches based on mitochondrial DNA (mt DNA) aren't as clear-cut as, say, a paternity test — but a mismatch would rule out any family connection. Women who wish to determine their direct paternal DNA ancestry can ask their father, brother, paternal uncle, paternal grandfather, or a cousin who shares a common patrilineal ancestry (the same Y-DNA) to take a test for them. Also, a man can test his mtDNA and thus learn the female Haplogroup of his maternal line, which is what Audry did. This is because all of a couple's children get the mother's mt DNA. Fortunately for our Blackledge Project, Audry also undertook the Y-DNA37 test with a separate kit (Kit #213645). And this is where Chapters 4 and 6 show promise of being related.

A Haplogroup is a genetic population group associated with early human migrations and which can today be associated with a geographic region. It is important to note that even though female and male haplogroups may have the same letters, their definitions are different. Haplogroups tell you your paternal and maternal deep roots, meaning, where your ancestors were at the end of the last ice age (~10,000 years ago). If two people have different Haplogroups then they were not even related 10,000 years ago.

Once you have done your DNA testing, there is a 'public service site' called ysearch.org that provides for the storage of Y-chromosome DNA results, and allows comparison of such results, even when acquired through different vendors, such as FamilyTreeDNA, Ancestry.com DNA, and 23andMe. More and more people are being DNA tested by Ancestry.com and the only current way to make comparisons is to use

ysearch.org. Unfortunately, FamilyTreeDNA and Ancestry.com DNA don't use the same set of markers. Some markers are in common, but many are not. This is most unfortunate!

Here are results of interest: Andrew Craig "Andy" Blackledge [4:2527] (Kit #207185) found an exact match at the yDNA-37 level with Audry Regnal "Reggie" Blackledge [6:3468] (Kit # 213645). The likelihood that they share a common ancestor within the past 12 generations is 100%. This is derived from the FamilyTreeDNA charts as Andy relates:

"Reggie must have also had a yDNA-37 test done. I upgraded mine to a yDNA-67 marker test. At the 67 level, I matched someone named Louis Giles, with a genetic distance of 6. I wanted to see if there were any closer matches at lower levels. The yDNA-12 marker level obviously reveals many perfect matches, and suggest a certain level of randomness/ambiguity. I filtered my match results down to the 37-marker level comparing to another person with the same 37 markers. I came upon Audry Regnal Blackledge, and realized we matched 37/37 markers, for a genetic distance of zero."

This match between one individual in the Phillip line with an individual in the Zachariah line could mean that the speculation about Zachariah being the child of Phillip may be correct – however that is certainly not proved at this time. For example, there may be some other common ancestor of Andrew and Audry, e.g., some far-off ggg-grandmother, who is in both lines. We need testing and comparison with more participants to find out.

Another approach is getting tested for SNPs using either FT-DNA Family Finder or 23andMe.com. SNPs are Single Nucleotide Polymorphism (SNP), and represent a change in the DNA that happens when a single nucleotide (A, T, G, or C) in the genome sequence is altered. A person has many SNPs that together create a unique DNA pattern for that individual. This is a test anyone, male or female can do and FamilyTreeDNA claims that it will find new connections with any relative at least back five generations. However, there is still debate about how effective it is.

If you are a male in the Zachariah line [Chap 6] or the Phillip line [Chap 4], the compilers encourage you to participate in a yDNA-37 level test with FamilyTreeDNA and indicate that you want your results appended to the Blackledge/Blacklidge surname project. The Project will report any interesting news on the web site. For meaningful results, the 37 marker test is a minimum. A close match at 37 or 67 markers means a connection within our "genealogical time frame" and may help to determine the Philip/Zachariah connection.

The compilers also have information on other Blackledges who surely belong to this family but the link is not yet known and thus they are not included in this chapter. Much could also probably be learned if one were to research the Walters family, which provided spouses (and descendants) in this line. Linda Talbot cautioned the compilers about tackling that project since following lines in that family is so confusing – so there is another challenge for someone. There is a great deal of work yet to be done on this line of the family and the compilers sincerely hope that readers will provide additional information.
